Excerpts from a New England

Gareth Southgate: Eight Years and Eighteen Episodes

By David Winner

Key features

- Perceptive and wry analysis of Gareth Southgate's eight years as England manager
- Written by acclaimed author of several classic football books
- Cleverly places Southgate's tenure in the context of a turbulent period of political, social and cultural upheaval
- Sixth book in the innovative Football Shorts series
- Publicity campaign planned including radio, newspapers, websites, podcasts and magazines
- Author available to do interviews and publicity, including at a launch night, along with TV and radio appearances

Description

Through eight years of weird tumult, one modest and bearded Englishman embodied decency and tried to keep us happy and sane. He wasn't bad at being a football manager either ... After the national team's nadir of defeat by Iceland at Euro 2016, Gareth Southgate woke England, re-imagining, re-energising and taking them to a World Cup semi-final and two Euros finals. A nation rejoiced. Well, some of the time. For still there was criticism: of being 'woke', for stepping beyond sporting boundaries and trying to make the nation proud of its modern diversity. And for the tactics – born of being an England defender himself – that some considered too cautious. In *Excerpts from a New England*, acclaimed author David Winner places Southgate's enlightenment, achievements and legacy in the context of a period of political, social and cultural upheaval. The result is a perceptive and wry analysis of an exceptional man and a turbulent era.
